ENHANCE THE CUSTOMER EXPERIENCE

We know that high street stores have been hit by several different issues and trends affecting the retail market: lower consumer spending, the rise in online competitors, and the way consumers shop using their mobile devices. To readdress this, retailers are now looking at ways they can change to attract more shoppers and, more importantly, get them to spend more money.

Research*¹ shows that 75% of stores are now looking to adopt mobile POS in the next five years to help them attract more shoppers. This is because, among many features, it can improve the efficiency of your IT systems. It also will help you improve the in-store customer experience by helping retail assistants to influence customer buying behaviour as they walk through the store. They can:

- Carry out transactions
- Provide tailored information
- Remotely print receipts
- Reduce queuing times

They also benefit from costing much less to install than traditional methods and can be upgraded and rolled out faster. All important factors to help keep ahead of the competition.

“45% of retailers said Cloud-based POS enabled cost savings.”

Epson Retail Study,
2012, Coleman Parkes

ENGAGE WITH TECHNOLOGY

Our intelligent solutions are designed specifically for the retail environment and allow you to make the most of everything that cloud computing has to offer, as well as to leverage mobile technology so you can really engage with your customers.

Leveraging mobility

- Thanks to the Communication Box technology, additional screens can interact with customers by showing receipt data and advertisements. Store managers can also have instant access to business data and authorise special operations, such as voiding items
- Easy to integrate tablet PCs and mobile devices thanks to ePOS² technology

Flexibility

- With our TM-Intelligent devices you can control POS peripherals and existing TM receipt printers
- Online services, such as loyalty programs and electronic receipts can easily be integrated

Epson

Designed for retail

- Our intelligent devices have an integrated design with a receipt printer, processor and storage all in one single case
- Eliminate downtime with a built-in local backup of data
- Our devices have low power consumption for lower TCO

Bridge to the future

- Our TM-Intelligent devices are designed to work in co-existence with existing POS applications

New technology creating new opportunities

What if...

- Your business could handle more customers, better manage business peaks and at the same time reduce staff overheads
- You could free-up counter space currently taken up with bulky POS equipment
- You could eliminate queues and waiting times
- Your customers could arrive at a restaurant, sit down at a table, and someone simply brought them their meal

Suppose you...

- Could move staff out from behind the counters and redeploy them to manage the customer journey
- Could engage with customers and help them to buy what they need

Imagine if...

- Your customers could use their own devices to browse and complete transactions
- You could take advantage of all the efficiency benefits of a web-based POS system with the reliability of a local in-branch system, independent of a continuous internet connection
- You could do this without a PC, and the power, support and maintenance requirements which come with it

The TM-Intelligent Range is designed to change, adapt and scale making this the perfect platform to turn this retail vision of the future into today's reality.

PROVIDING A FIRST CLASS SERVICE

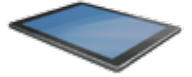

DEPENDABLE PRINTING

Renowned for high-quality and reliable printing, the TM-T20II is the ideal choice for printing orders in busy areas.

MOBILITY

Manage business peaks by taking customer orders at the bar using tablet PCs.

MOBILE PRINTING

Take payment and print receipts anywhere in the restaurant with the TM-P20 mobile receipt printer, to improve the customer experience.

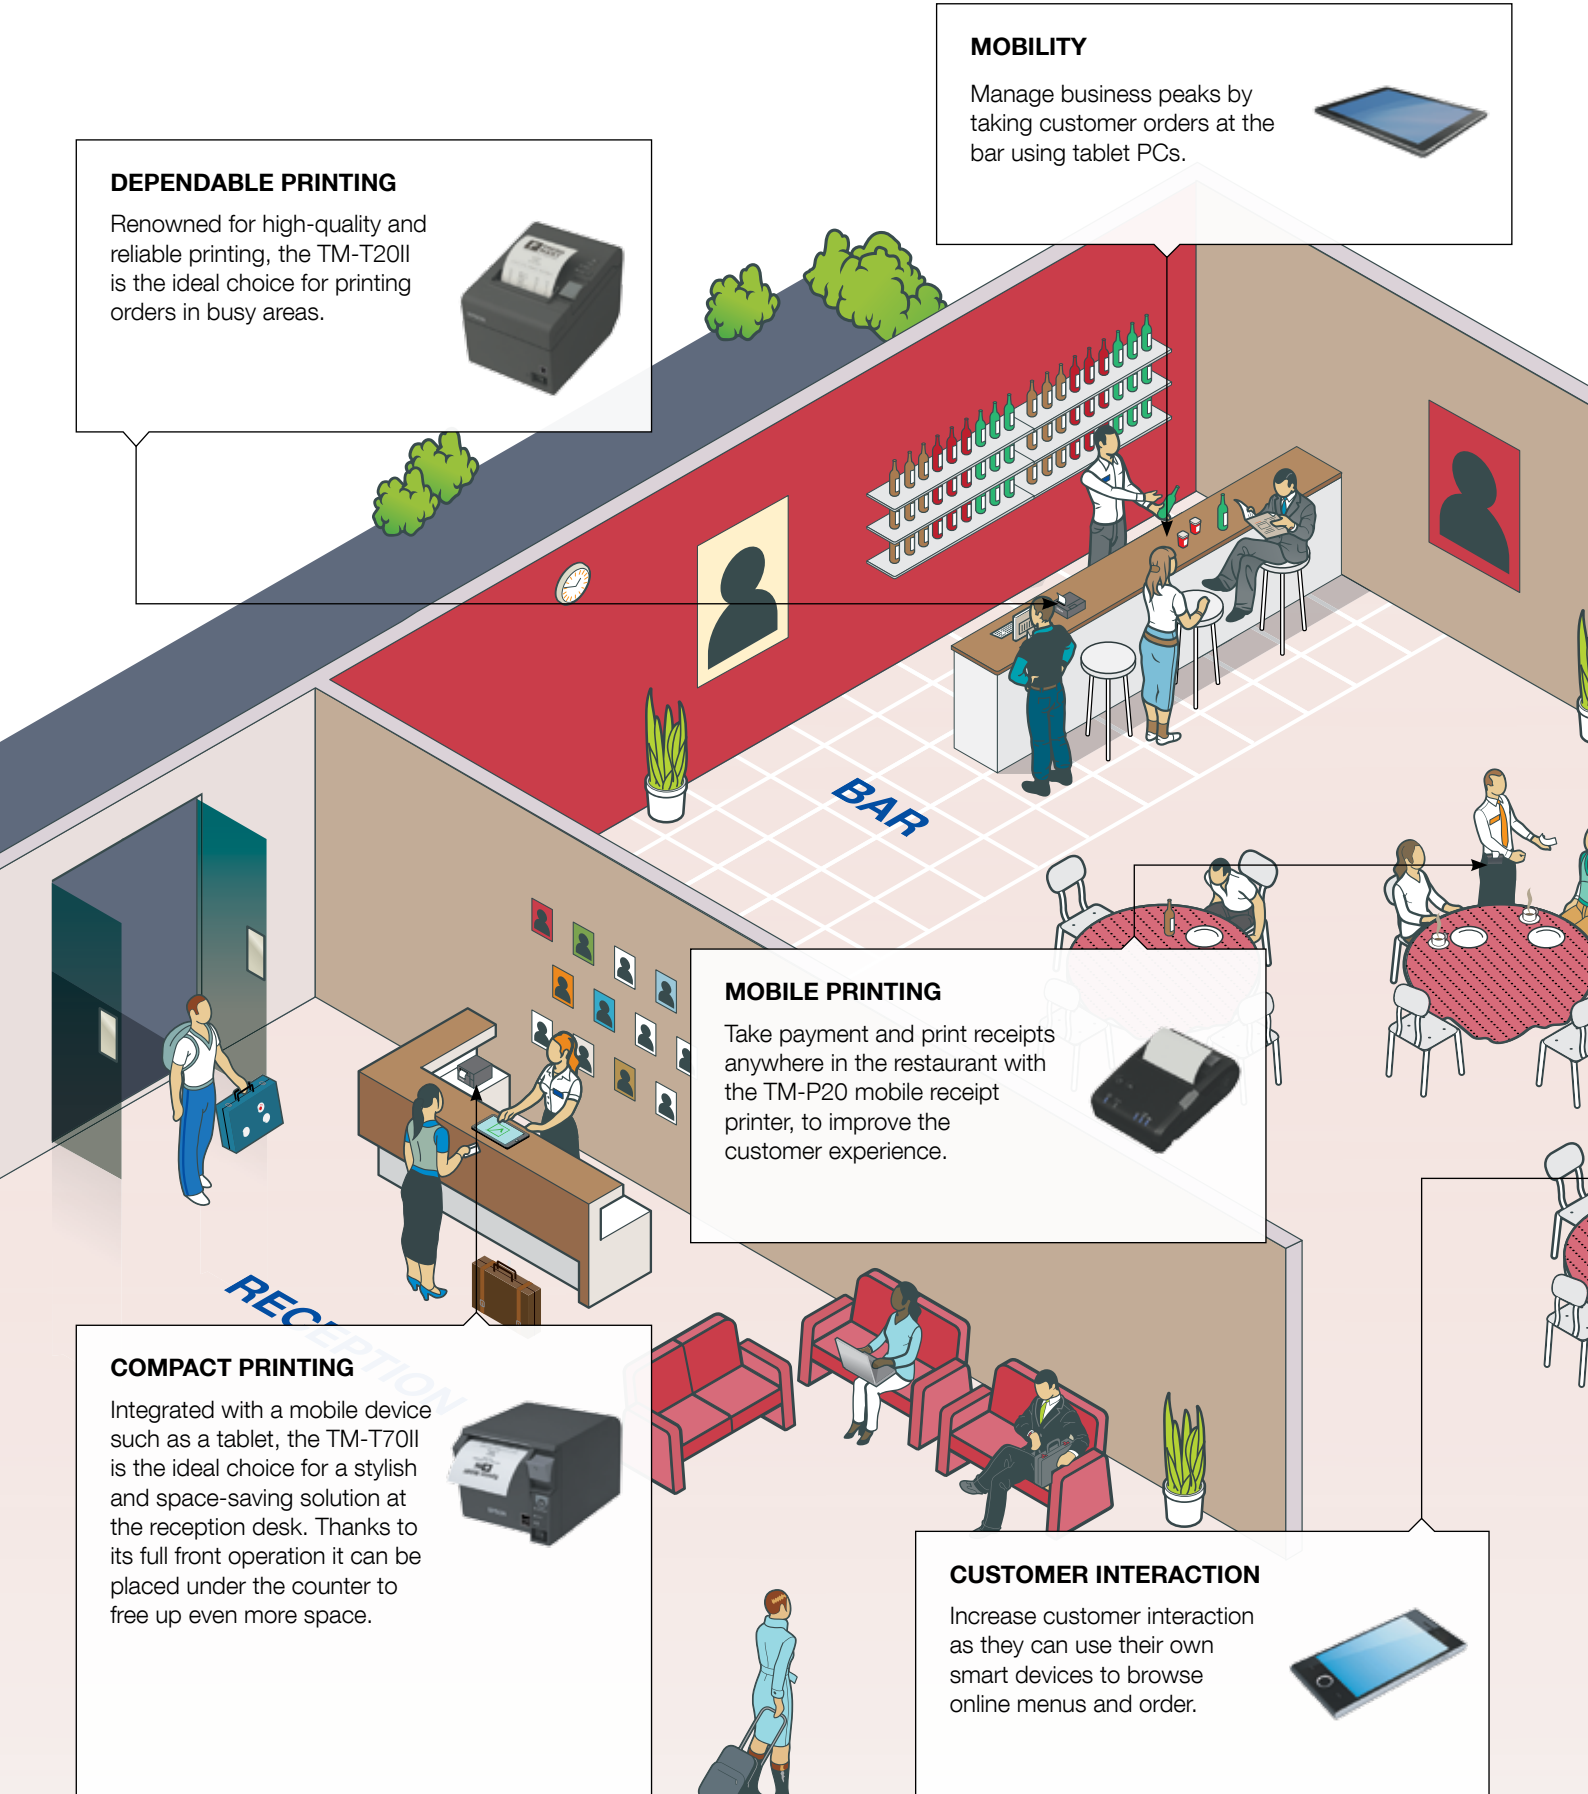

COMPACT PRINTING

Integrated with a mobile device such as a tablet, the TM-T70II is the ideal choice for a stylish and space-saving solution at the reception desk. Thanks to its full front operation it can be placed under the counter to free up even more space.

CUSTOMER INTERACTION

Increase customer interaction as they can use their own smart devices to browse online menus and order.

DEPENDABLE PRINTING

The TM-T20II is a dependable, low maintenance receipt printer that's ideal for busy kitchens. It is very compact and can be mounted horizontally or hung vertically on the wall. With a waterproof switch cover and external buzzer it's built for harsh environments.

AWARD WINNING RESULTS

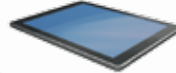

Epson's WorkForce Pro Series printers offer low running costs, fast print speeds and low intervention to boost productivity.

KITCHEN

BACK OFFICE OPERATIONS

Managers can use mobile devices to have a real-time view of revenue and number of transactions from the restaurant and bar.

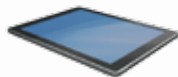

BACK OFFICE

RESTAURANT

REDUCE WAITING TIMES

Keep customers happy with a faster, smoother and more seamless experience, as staff can move around the restaurant taking orders on tablet PCs and smartphones.

INTELLIGENT SOLUTIONS

By using the TM-T88V-iHub you can benefit from affordable and innovative tablet-POS solutions, including peripheral control and interaction with different mobile devices all at the same time. Allowing you to deliver new services to your customers and stay ahead of the competition.

IMPROVE EFFICIENCY AT THE POINT OF SALE

HIGH PERFORMANCE

Reduce transaction times and downtime with the TM-T88V. Its market leading print speed, outstanding reliability and economical design make it the ideal receipt printer for your POS.

INSTANT LABELS

Make your products stand out with high-quality, eye-catching colour labels, tags and tickets, printed on demand. The TM-C3500 is perfect for special lines, promotions and last-minute deals.

MOBILE PRINTING

Create pop-up and seasonal shopping experiences with our TM-P80 mobile receipt printer.

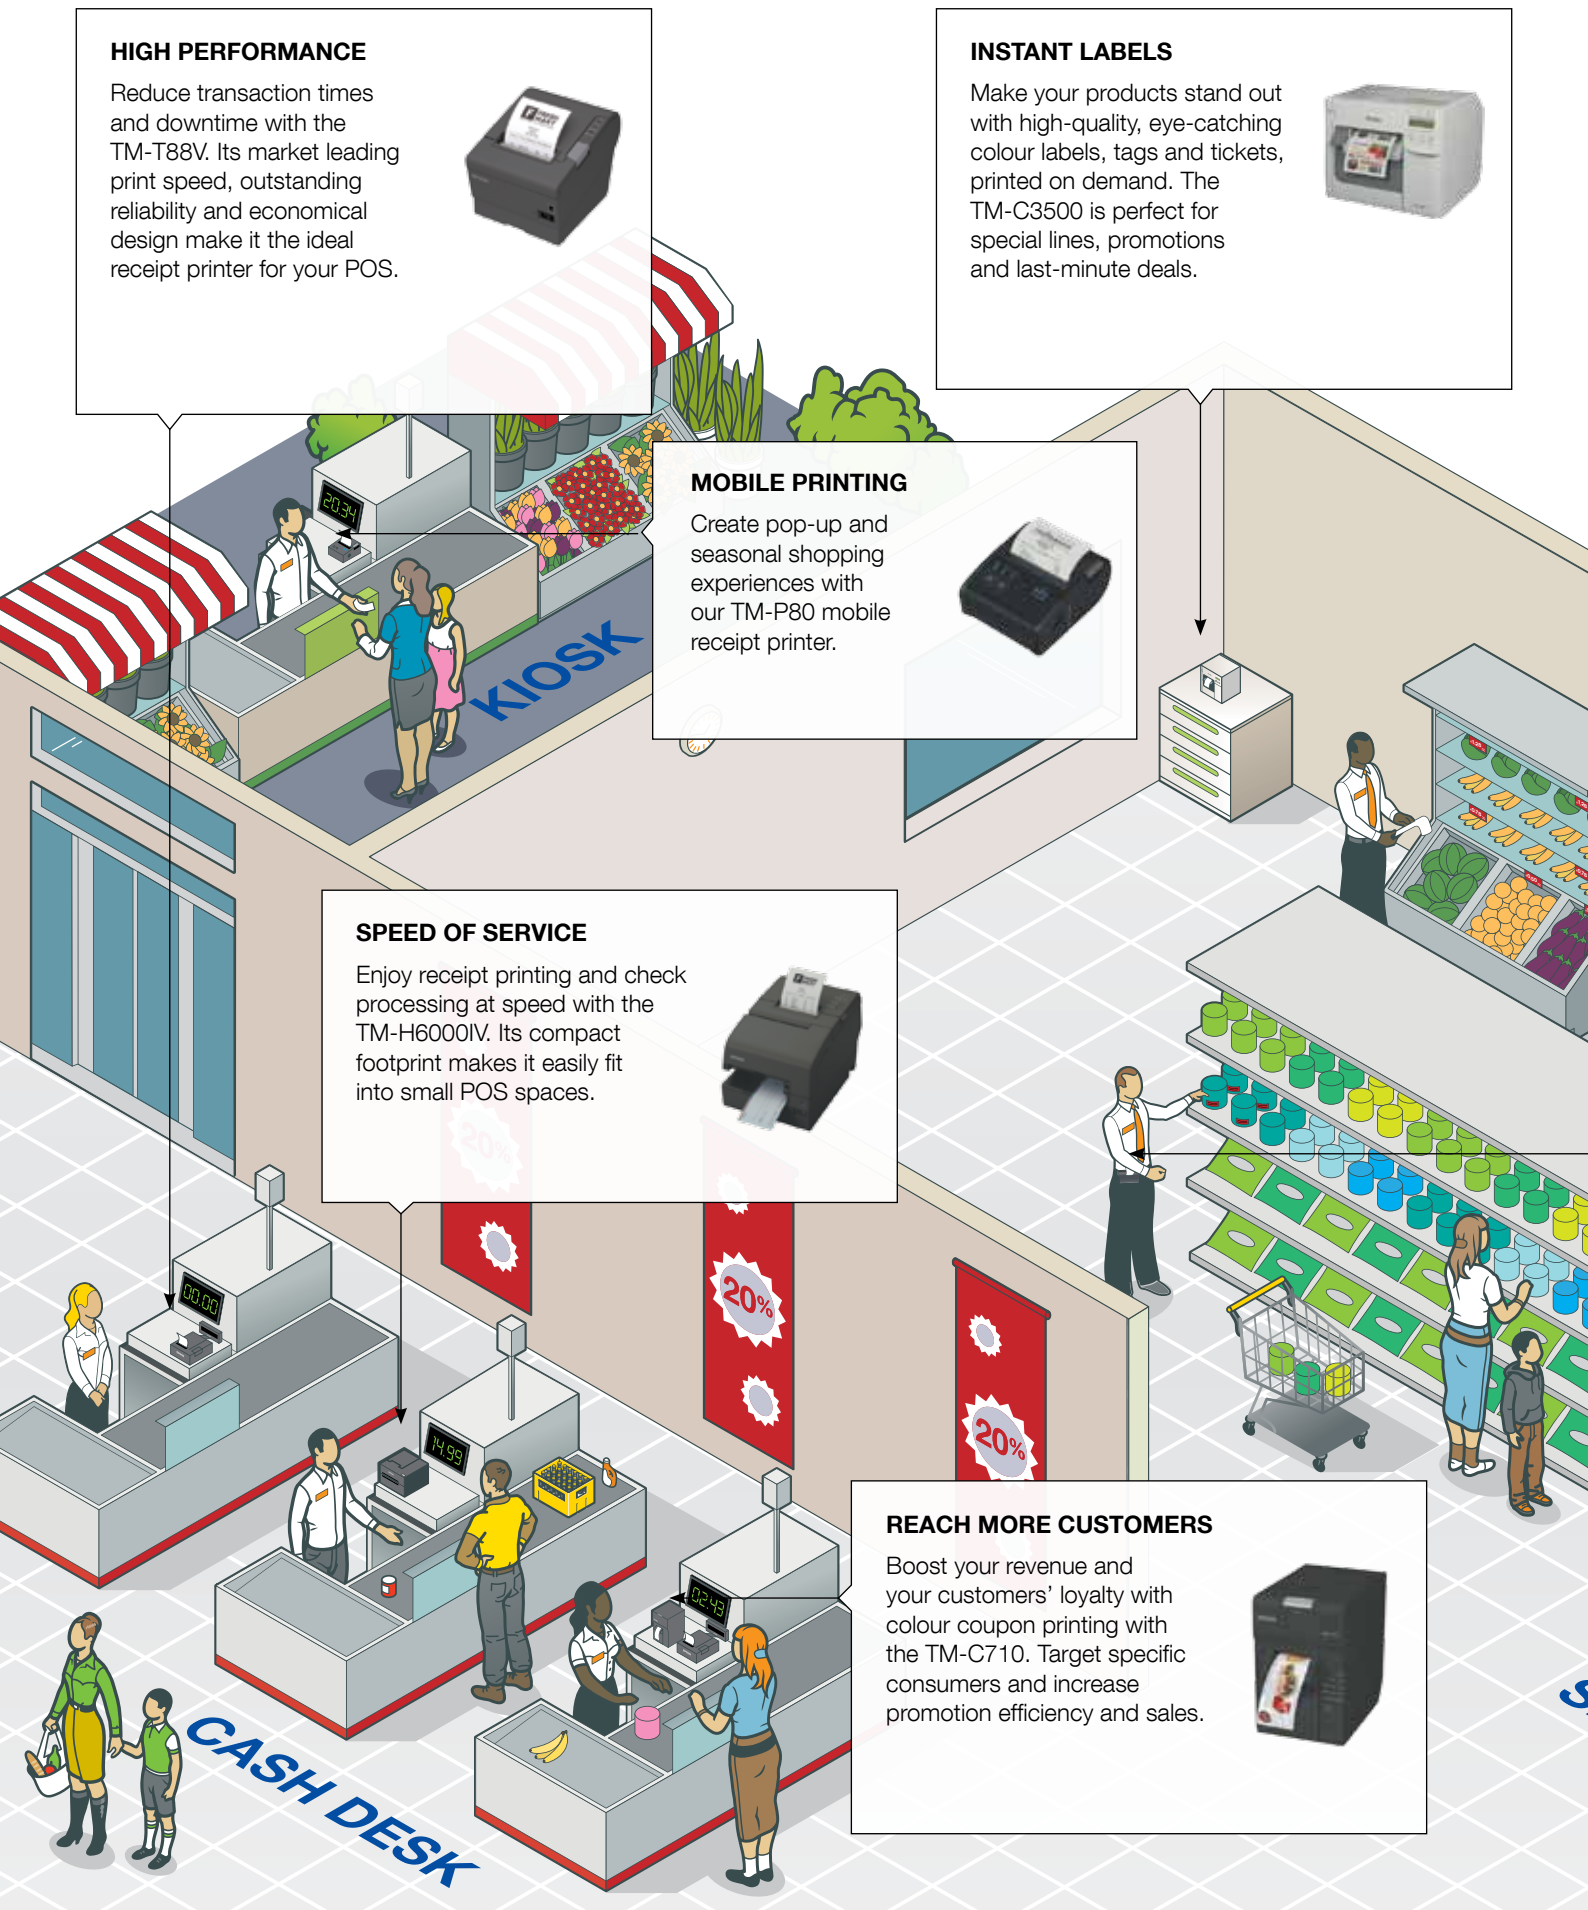

SPEED OF SERVICE

Enjoy receipt printing and check processing at speed with the TM-H6000IV. Its compact footprint makes it easily fit into small POS spaces.

REACH MORE CUSTOMERS

Boost your revenue and your customers' loyalty with colour coupon printing with the TM-C710. Target specific consumers and increase promotion efficiency and sales.

MAKE A BIG IMPRESSION

Supersize the impact of your promotions with our SureColor SC-T Series. Create large, high definition posters and displays that reinforce your brand image and help drive sales.

AWARD WINNING RESULTS

Epson's WorkForce Pro Series printers offer low running costs, fast print speeds and low intervention to boost productivity.

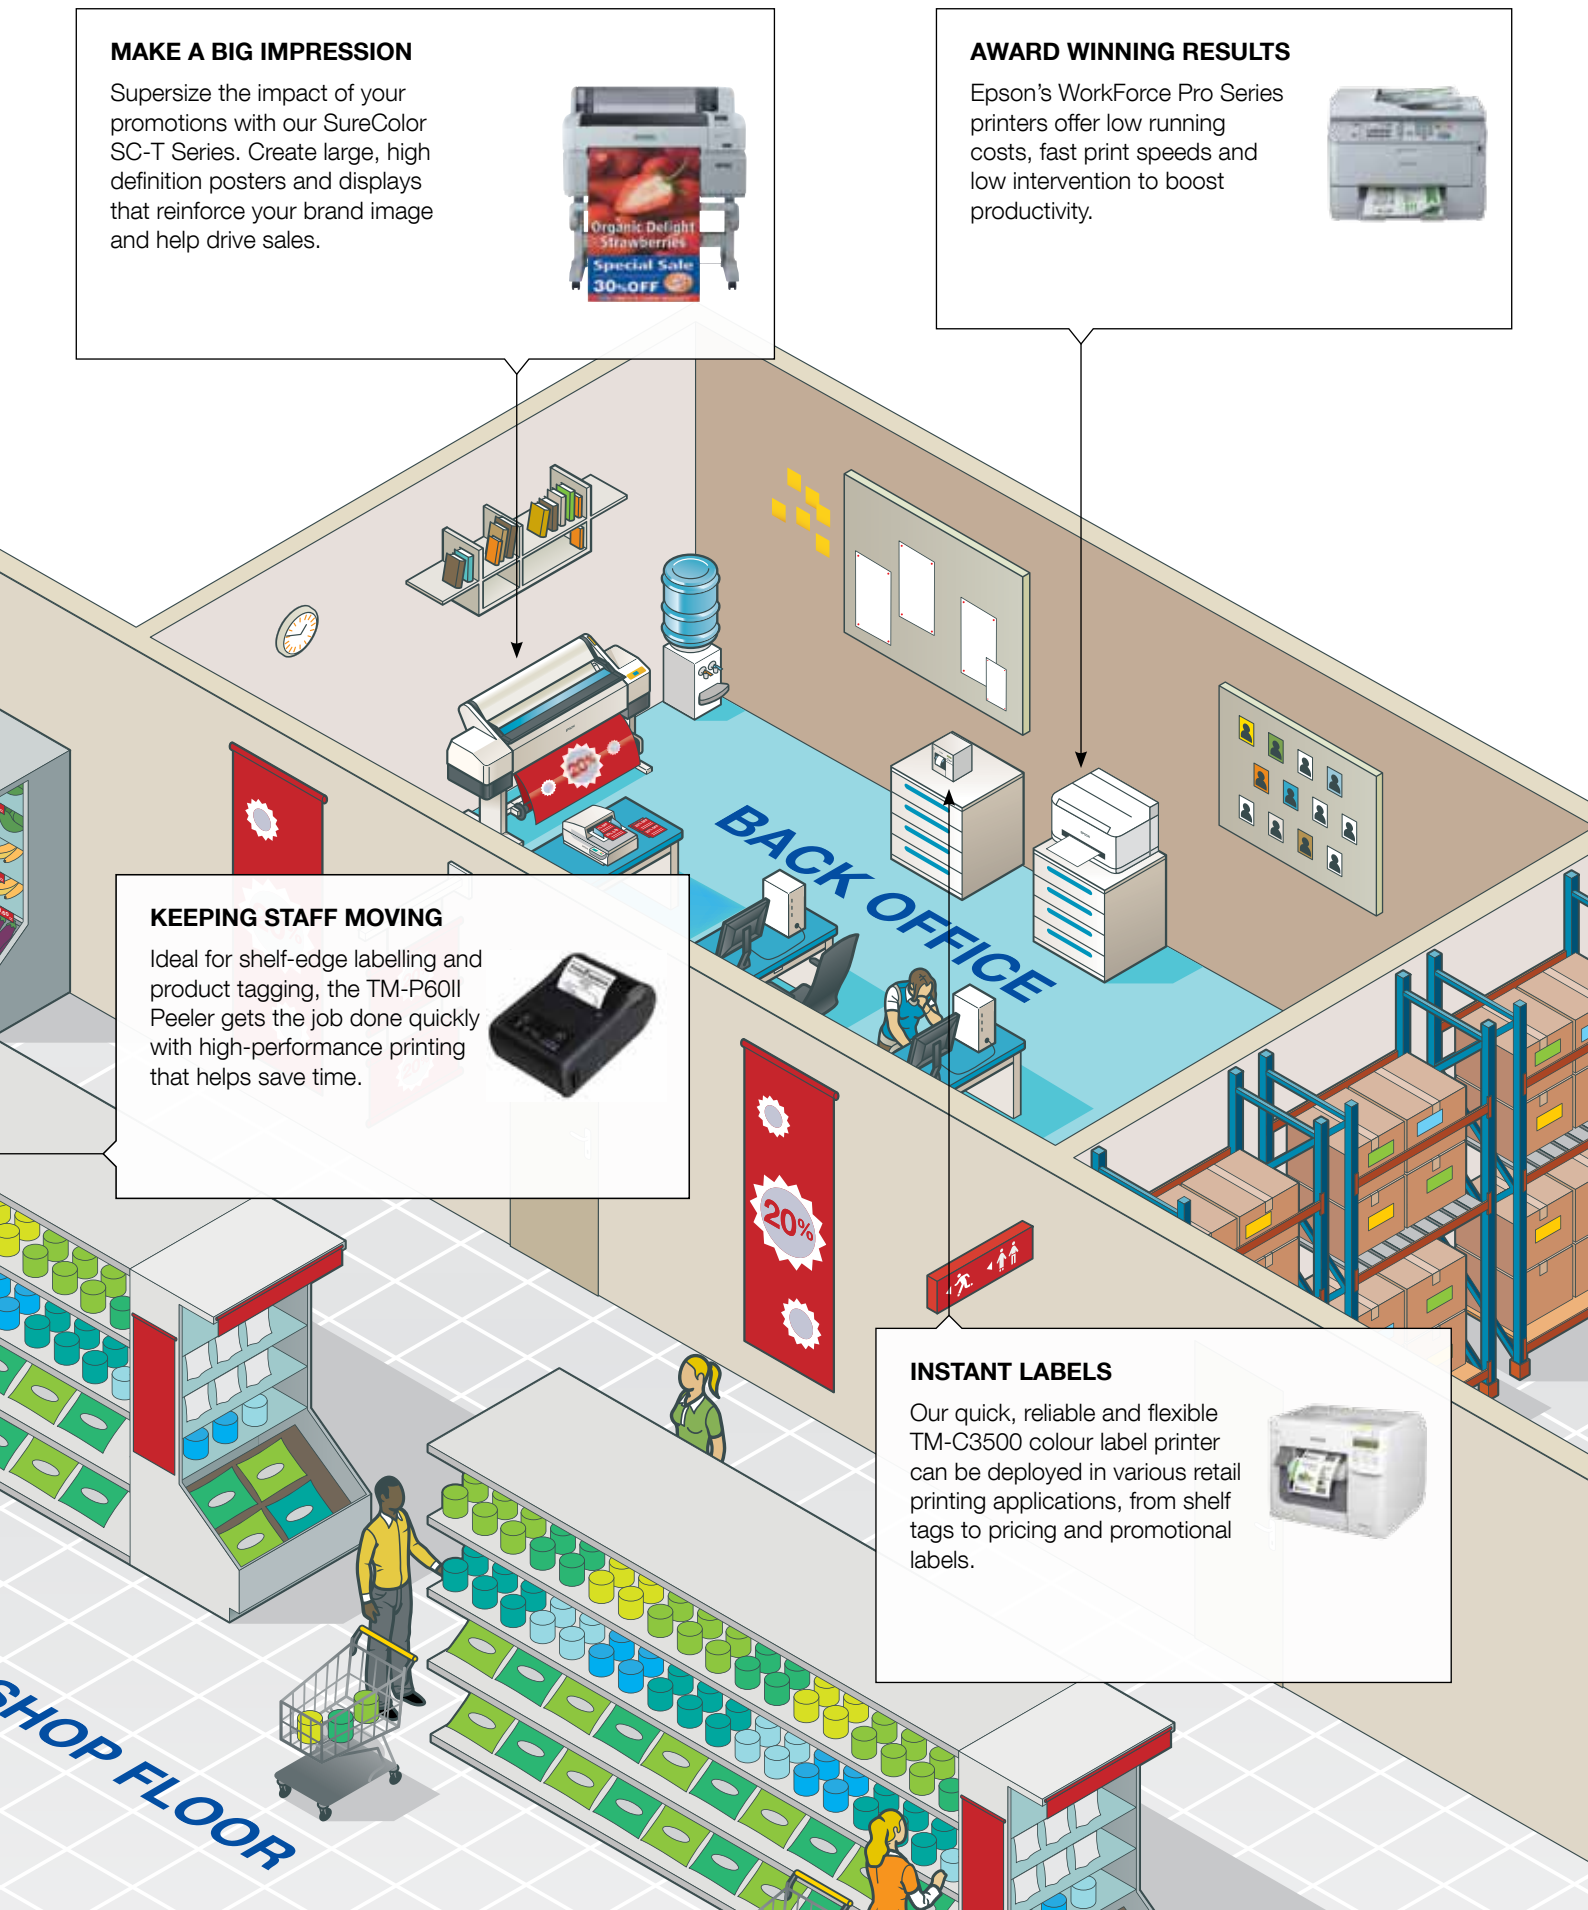

KEEPING STAFF MOVING

Ideal for shelf-edge labelling and product tagging, the TM-P60II Peeler gets the job done quickly with high-performance printing that helps save time.

INSTANT LABELS

Our quick, reliable and flexible TM-C3500 colour label printer can be deployed in various retail printing applications, from shelf tags to pricing and promotional labels.

INTELLIGENT POS PRINTERS

Epson TM-T88V-DT

Offering retailers significant cost savings, the TM-T88V-DT is a standalone, intelligent receipt printer with an integrated design (built-in processor). This reduces the amount of hardware needed, cutting energy usage and reducing maintenance and servicing expenses. The printer's 'paper save' feature lower costs further.

The TM-T88V-DT provides full resilience, allowing you to run local applications, with internal PC functionalities that can be used to back-up POS applications and databases.

Key features

- Integrated design allows you to communicate directly with mobile devices without the need for an additional PC or drivers
- Our ePOS^{*2} technology enables the creation of the complete POS, including the control of all peripherals
- Cut costs as there are less devices to maintain
- Eliminate downtime with a local back up of data

Key for icons can be found on page 29.
*2Patent pending.

Epson TM-T70II-DT

The TM-T70II-DT has all the same functionalities as the TM-T88V-DT with the added benefit of being able to mount under the counter. Use of mobile devices is simplified, as the mobile device communicates with the printer using web browsers. Configuration, administration and local device management can also be carried out remotely.

Its fast print speeds of up to 250mm/sec save you time and its full front operation helps save space. Retailers can achieve lower power consumption compared to conventional systems, as one single piece of equipment can integrate the printer, CPU and storage.

Key features

- Print directly from HTML 5 browsers
- Different applications in different mobile devices can share data with our Communication Box technology
- POS peripherals are controlled locally or through the web with our ePOS^{*2} technology

Intelligent benefits

Compact

Save counter space with the compact stylish black or white design

Print from mobile devices

Print directly from tablet PCs and other smart devices

Peripherals control

POS peripherals are controlled locally or through the web

Interaction

Provide targeted communications with digital displays

Epson TM-H6000IV-DT

We are accelerating the transition to web applications, as they offer cost-efficiency and provide a centralised system. This model consists of a TM-H6000IV printer with a built-in controller, which connects to POS peripheral devices and web servers with ease.

The TM-H6000IV-DT's design integrates the receipt printer, cheque/invoice and endorsement printer, MICR reader, a powerful Atom processor, 4GB of memory and 500GB HDD, all in one single case.

Key features

- Intelligent multi-function POS printer with web services and mobile device connectivity
- Delivers control for POS peripherals
- Integrates a receipt printer and printing station for additional documents like cheques or invoices
- Future proof, as it supports most legacy Windows/Linux applications
- Low power consumption and low TCO
- Stylish all-in-one design that saves on counter space

Intelligent differences

Differences between the TM-iHub family and TM-DT family:

TM-iHub printers

- ✓ Print from mobile devices
- ✓ Peripherals control
- ✓ Access private or public network
- ✓ Interaction with different users (operator, customer, store manager etc)

TM-DT printers

- ✓ All of the above TM-iHub functionalities plus:
- ✓ The ability to run local applications, thanks to the internal PC and pre-loaded Windows/Linux operating system

Epson TM-T88V-iHub / TM-T70-iHub

TM-iHub products are the second generation of the successful TM-i Series, which include new features via the ePOS² technology, including control of POS peripherals and data input from mobile devices. They enable the shift from existing PC-based terminals to tablet-based POS solutions.

Retailers or restaurants benefit from affordable and innovative tablet-based POS solutions which allow sales staff to move out from behind the counters and improve the customer experience and services.

Key features

- Print from different web service providers with Server Direct Print
- Communication Box included to interact with different mobile devices at the same time
- TM-iHub is easy to integrate and use, with many tools for configuration, operation, support for installation or development

“This innovative technology from Epson has opened up new possibilities for our retail environment, by significantly simplifying our entire business.”

Raffaele Abbate,
CIO of Original Marines

SPEED AND SIMPLICITY

The customer is king, that's why first class service and an engaging experience are vital in driving profitability. We deliver the technology to suit retail and hospitality needs, be it a fast throughput of transactions or reduced downtime.

Epson TM-T88V

This is our most economical, low-resource thermal receipt printer. This flagship model brings your business even higher performance printing with no fuss and a very low cost of ownership.

Like the Epson TM-T88 generations before it, innovation is at the heart of this printer. It is the world's first ENERGY STAR-qualified approved thermal receipt printer, and the first greyscale graphic POS printer too. It works harder for your business at the point of sale, with metal hinges, splash resistance, an integrated paper cutter with a 2 million cut performance rating, a 70 million line mean work cycle between two failures and a printhead with 50% more capacity. With this level of reliability we are proud to offer a 4-year commercial warranty.

Key features

- Very fast printing up to 300mm/sec
- Reduce waste with auto paper reduction
- Outstanding reliability with MCBF of 70 million lines
- Easy to install and upgrade
- Wide choice of connectivity
- Available in cool white, dark grey, white or black

TM-T88V benefits

Stand out receipts

Design and customise your own receipts with greyscale graphic printing

Customisable

Reduce top and bottom receipt margins, barcode size and line spacing

Flexibility

The remote maintenance software enables you to read paper consumption figures or cut numbers

Save paper

Paper saving feature to automatically reduce paper usage by up to 30%

Easy-to-use

Thanks to the additional built-in USB interface and self explanatory software it is easy and quick to install

Fast

Improve the customer experience by cutting down on waiting times

Green

The world's first ENERGY STAR-qualified POS thermal receipt printer

Reliable

Saves cost on maintenance

Print directly from mobile devices using ePOS*2 technology

Valid for all Wi-Fi, LAN and BT models (TM-T88V, TM-T70II, TM-T20II, TM-U220 and TM-P Series)

Made for

iPod iPhone iPad

Epson TM-T70II

Epson TM-T20II

Ideal for retailers and the hospitality industry, this mid range thermal POS receipt printer is fast and reliable with a space saving and stylish design. It is easy to connect and integrate, and can print directly from a mobile device using either native or web-based applications.

The TM-T70II offers a wide choice of connectivity for maximum flexibility in the IT infrastructure. Thanks to its fully front operated design the TM-T70II can also be placed under the counter, freeing up valuable counter space.

Key features

- Fast and reliable receipt printer
- Space saving design allows for other POS peripherals to be placed on top of the printer making it suitable for mPOS applications
- Full front operation allows for under-the-counter storage and operation
- Greyscale printing for improved logos and marketing messages on the receipt
- Paper saving feature to automatically reduce paper usage
- ENERGY STAR-qualified for reduced energy bills and environmental impact

The TM-T20II is an affordable POS receipt printer with fast print speeds and economical features.

This easy-to-use model is our most affordable POS receipt printer on the market and its print speed of 200mm/sec can save you time, and its competitive price and running costs can save you money, ideal for when you need to beat queues quickly.

Key features

- Automatic paper reduction function saves money
- Reliable mechanism life of 15 million lines
- Fast print speed of 200mm/sec
- Mean time between failure of 360,000 hours
- Flexible connectivity with two built-in interfaces
- Coupon printing application

POS PRINTERS

Epson TM-U220 Series

These affordable and flexible impact printers are the preferred choice for retail, hospitality and restaurant kitchens, where speed and reliability is key. Select between the standard D model, the autcutting B, or the A model with included journal printing.

Key features

- Changeable interface
- Wall hanging option for kitchens
- Easy paper and ribbon replacement
- Handles 58, 70 or 76mm roll paper

*Model shown here is the TM-T20II, for key features please see page 13.

Epson TM-U295

An incredibly compact, versatile slip printer.

Key features

- Ultra-compact impact slip printing
- Flatbed design that's ideal for cheque and credit card authorisation
- Vertical and horizontal printing on four print sizes to print anywhere on the document

TM-T20II benefits*

Economical

Automatic paper reduction function saves money

Reliable

Mechanism life of 15 million lines

Fast

Print speed of 200mm/sec

Epson TM-U590

Hotels, restaurants and banks will find endless uses for this multi-part, wide slip printer.

Key features

- Impact slip printing for cheques and invoices
- Handles an original document and up to four copies
- Flatbed design for easy paper insertion
- Even larger slips up to 88 columns wide can be processed easily

Epson TM-U950

The perfect, versatile choice for busy retailers with hard-working POS systems.

Key features

- Supports a variety of printing formats, including receipts, journals, and slips
- When it comes to slip printing, it can generate an original and up to four duplicates
- Easily prints on media up to A4
- Easy paper loading and auto paper cutting
- Optional cheque printing and endorsement

Epson TM-H5000II

Use receipts as a business tool with the proven performance of this thermal and dot matrix printer. Enhance customer connection by linking purchases and multi-buys, adding logos, messages and barcodes.

Key features

- Incorporate one-to-one marketing into POS
- High speed, customisable wide-slip dot matrix and thermal printing
- Excellent reliability

Epson TM-H6000IV

Treat your business to the industry's fastest receipt printing and cheque processing printer of up to 300mm/sec. With a highly accurate MICR that has a recognition rate of more than 99%, this printer also takes reliability to a new level.

Recognised as one of the most reliable and efficient multi-functional printers on the retail market to print receipts, invoices and cheques in one compact device. It also benefits from a very low total cost of ownership.

This printer features improved power efficiency and reduced paper usage to help lower your overheads. Administrators will appreciate the new remote management feature, easy installation and two interfaces on-board.

Key features

- Industry-leading hybrid printer
- Faster receipt printing up to 300mm/sec
- High accuracy MICR over 99%
- Paper saving functions
- Network management and remote monitoring
- Energy efficiency with low standby power

Wide paper paths and simple replacement of consumables.

TM-H6000IV benefits

Easy-to-use
Simple to operate and replace consumables

Stand out receipts
Greyscale graphic printing

Reliability
The optional MICR reader has an accuracy rate of over 99%

Flexibility
Switch to a USB environment at any time, with USB included as standard

Compact
Compact footprint and easy to integrate

Epson TM-J7000 Series

Enjoy fast, smooth retail and banking POS operations with this compact multi-function inkjet and cheque processor. Enhance the customer experience and your business efficiency with permanent, high-quality 2-colour receipts and slips including graphics and barcodes.

Make a real difference to receipts with bright, eye-catching colour logos, coupons and advertisements. Print and validate customer cheques in seconds, even if they've been folded or crumpled.

Print and endorse cheques in as little as 12 seconds with this multi-functional printer's single-insertion system, which is virtually error-free because there's no need to flip the cheque.

This printer is easy-to-use even in demanding environments. The front-loading paper roll and ink cartridges are easy to change, while ink near-end detectors and the operations panel make it simple-to-use even for inexperienced operators.

Key features

- Class-leading speeds up to 14.3 text lines/sec
- One-pass cheque printing with SmartPass technology
- Durable and reliable for low cost of ownership
- High-resolution 2-colour printing
- Long-life ink cartridges
- Quality and efficiency with unique inkjet technology
- Handles cheques that have been folded or crumpled

High-resolution 2-colour printing.

Drop-in paper loading makes it easy to use and saves time.

Cleaning is automatic and ink cartridges can be replaced easily.

PRINTERS YOU CAN COUNT ON

Fiscal laws regulate the certification, specification, and usage of fiscal devices or systems approved for accumulation, classification, registration and dissemination of information about sales transactions.

Epson has many years' experience in fiscal technology, legislation and processes and we work closely with tax authorities in various regions. Our worldwide coverage ensures that we fulfil the demands of fiscal specifications.

Our Epson TM-T800F and Epson TM-T900F Series represent Epson's competence in printing for fiscal countries.

Epson TM-T800F Series

The Epson TM-T800F Series is designed to make fiscal reporting and receipt printing as easy and efficient as possible. Helping retailers and hospitality users save time by quickly issuing large fiscal reports, such as Z-closure. Specific models have been certified for fiscal use in Italy and Poland.

Key features

- Up to 10 years of fiscal data and up to 20,000 PLU can be stored in the printer's database (20,000 PLUs for Italian version only)
- Serial, USB or Ethernet connection (depending on the model)

Epson TM-T900F Series

The Epson TM-T900F Series is designed to make fiscal reporting and receipt printing as easy and efficient as possible with its powerful, 400MHz fiscal processor. In addition to the serial and USB interfaces, Ethernet connectivity allows remote control and generation of reports. Specific models certified for fiscal use in Italy.

Key features

- Integrated autocutter ensures customers are served quickly
- Single unit suitable for fiscal receipts, credit notes and fiscal invoices
- Remote control and generation of financial reports
- Compatible with XML commands and does not need any drivers

TM-T800F/TM-T900F Series benefits

Powerful

Powerful 400MHz processor for fast issuing of financial reports and fiscal documents

Versatile

Print text, barcodes and graphics. Maximum printing speed:
TM-T800F: 150mm/sec
TM-T900F: 260mm/sec

High-capacity

Save up to 10 years of fiscal data

Epson TM-T810F

The TM-T810F is one of the latest series of thermal receipt printers to be built on Epson's new fiscal platform. Integrators will find it easy to develop compatible boards because the TM-T810F uses Epson's standard command set.

Key features

- Ready for integrators to customise
- Easy to customise as it uses Epson's standard command set
- Built on the new Epson fiscal platform
- Efficient, with a print speed of up to 150mm/sec
- Reliable, with a MTBF of 360,000 hours

Epson TM-T86FII

Efficient and reliable receipt printer with black mark sensor. Available for fiscal use in countries where fiscal regulations permit the use of thermal paper with black marks.

Key features

- Black mark sensor for pre-printed paper
- Efficient with a max print speed of 220mm/sec
- Reliable, 360,000 hours MTBF

Epson TM-T260F

This is a fast 2-station thermal printer for receipts and journals in fiscally regulated markets. It fits easily into any shop environment, is virtually silent and delivers superb quality results with no fuss, time after time.

Key features

- Ready for integrators to customise
- Fast printing up to 150mm/sec (receipts)
- Simple front-loading, drop-in paper system
- Suits expansion into fiscally regulated markets

SMART PRINTING FOR BUSINESSES ON THE MOVE

Fast and effective, these printers add flexibility and ease to customer interaction with capabilities ranging from high-quality receipt and barcode printing to direct printing from web browsers on tablets and mobile devices.

Epson TM-P20

The new TM-P20 from Epson is a simple, light and reliable mobile printing solution that allows retail and hospitality businesses to operate more efficiently and productively. With Epson's unique built-in intelligence, ePOS-Print*, users can print directly from web browsers without the need to install additional drivers. Additional new features like the easy setting function and NFC or barcode pairing make the TM-P20 an easy-to-use, on-demand mobile printing solution to improve customer experience and services.

Key features

- Small and light 58mm mobile receipt printer
- Simple and intuitive operation
- Fast print speed of up to 100mm/sec
- Reliable and robust (IP-54 certified with optional soft case)
- Battery life of up to 26 hours (BT) and 16 hours (Wi-Fi*)

TM-P20 benefits

Print from mobile devices
You can print directly from tablet PCs and other smart devices

High-performance
Fast printing at up to 100mm/sec

Enhanced features
Easy setup in Wi-Fi environments and NFC or barcode pairing for convenient operation

Epson TM-P60II Receipt or Label

The Epson TM-P60II Receipt/Label printer offers a brilliantly simple receipt and label printing solution. Its intuitive features take advantage of hand-held wireless, mobile printing technology to aid queue busting, order taking and shelf-edge labelling, helping to serve customers quickly and efficiently.

Reliability is assured thanks to the unit's rugged casing, easy paper loading and long battery life of up to 46 hours in Bluetooth (BT) mode, and up to four batteries can be charged simultaneously using the optional charging unit.

Key features

- Print directly from web browsers without drivers
- Autocutter for easy and convenient operation
- High-performance printing of 58mm receipts at up to 100mm/sec
- Outstanding battery life
- Compact and robust design
- Also available as TM-P60II Peeler model for advanced die cut labelling

Epson TM-P80

Are you a retail or hospitality business looking to reduce queues and increase positive customer feedback? If so, this portable device is the ideal choice. The TM-P80 can also handle printing barcodes and 2D symbols, making this reliable device a must-have product.

If you need to print 80mm-wide receipts, this efficient thermal POS printer is ideal, and it has a convenient belt clip for mobile use.

The TM-P80 features an Auto Paper Reduction function, that automatically reduces the receipt margin and length by up to 23%, all without altering the data or print speed.

Key features

- Print directly from web browsers without drivers
- Industry-leading operational battery life of up to 46 hours in BT mode
- Compact and robust design
- Prints receipts at up to 100mm/sec
- Auto Paper Reduction function to further reduce costs

Convenient

Print receipts directly from tablets or other mobile devices

PRINT SOLUTIONS THAT STICK

From repositionable labels to shelf tags, all these and more can be produced in-house, on demand and for many different media.

Epson TM-T88IV ReStick

A special version of the world's leading receipt printer has been developed to produce repositionable labels which stick to almost any material. The Epson TM-T88IV ReStick prints individual receipt labels which can be conveniently repositioned without damaging the surface. Helping to improve customer service, this unique thermal printer will reduce errors in order processing and avoid mistakes when labelling customised goods and individual offers.

With its durable, proven construction and design, this innovative product prints and cuts liner less thermal paper roll on demand, at high speed, and with outstanding reliability.

Key features

- Print on both receipt and Liner-free ReStick label paper
- Increased spill resistance
- High-speed printing for graphics, barcodes and text
- High-quality and reliable
- Buzzer included as standard

Typical ReStick applications

Epson's Liner-free ReStick label printer is a cost-effective solution for a wide range of label applications used in the fast food, hospitality and convenience industries including:

- Exception labels
- Bag tag labels
- Product labels
- Pizza box labels
- Sandwich wrap labels
- Speciality cup labels
- Take-away order labels
- Freshness dating labels
- Delivery receipt labels
- Refrigerator coupons
- Prepared food labels
- Ingredient labels
- Special pricing labels
- Nutritional information labels

TM-T88IV ReStick benefits

Convenient

Uses repositionable adhesive Liner-free labels

Reliable

High-resolution 203dpi printhead

Versatile

Vertical and horizontal mounting options available

Easy-to-use

Easy drop-in paper loading

58mm

Space saving

Emulation allows an 80mm receipt or restick label to be printed in 58mm space

Epson TM-L90 Liner-free

Quick service restaurants, cafes and coffee shops can improve efficiency and order accuracy with the Epson TM-L90 Liner-free. Businesses can print adhesive-backed receipts, providing a reliable method for labelling customers' orders, ensuring they are correct.

Key features

- Improves order accuracy in QSR
- Uses standard and adhesive paper
- Auto top margin reduction
- Compatible with 40 and 80mm paper widths
- Power-efficient; ENERGY STAR-qualified
- Three mounting positions

Epson TM-L90 and TM-L90 Peeler

Enhance your business with the fast, compact printer that produces high-quality permanent labels and receipts. Choose from a wide variety of paper, including thermal labels, receipts and tickets. The Peeler version has a special function where it takes the labels off the liner for you, ideal for glove wearing environments.

Key features

- Print at up to 150mm/sec at 203x203dpi
- Design custom labels quickly and easily
- Easy drop-in paper rolls
- Excellent reliability with an MCBF of 70 million lines
- Also available as Peeler model

LABEL AND COUPON PRINTERS

Epson TM-C3500

The Epson TM-C3500 brings high-quality colour and on-demand versatility to your labels, tags and tickets. Featuring high-quality print speeds of up to 103mm/sec and individual pigment ink cartridges, your business will save time and money on outsourcing label production, by printing colourful labels and shelf tags on-demand.

Key features

- High-quality, four-colour inkjet printing (CMYK DURABrite pigment ink)
- Fast print speeds of up to 103mm/sec
- Individual ink cartridges save you money, as you only replace the colour used
- Integrated autocutter
- Easy setup software included
- Complies with the BS5609 certification

Epson TM-C3400

Print labels, tags and tickets in full colour and on demand with a printer that is compact and quick enough to be used as an affordable desktop printer, but robust and easy to operate and maintain to fit easily in industrial environments.

Key features

- Convenient 3-colour cartridge for easy replacement
- Simple front operation and compact size for under counter positioning
- Reduced environmental impact with water-based inks and low-power consumption
- Integrated autocutter – affordable and reliable

Epson colour inkjet benefits

Less ink

Print up to 10,000 labels with a single ink cartridge set

Green

Use less energy while printing and on standby

Fast

Print up to 1,000 labels per hour

Easy to control

Take control with central administration

Wide

Print on media from 30mm to 112mm wide

Fast

Print at speeds of up to 103mm/sec

Flexible

Various label qualities and sizes meet the demands of all vertical segments where colour is required

Economic

Individual ink cartridges and additional black ink for cost effective printing

Epson TM-L500A Ticket

Get fast and flexible printing for entrance tickets and labels with the Epson TM-L500A Ticket, which works with a wide variety of paper types.

The Epson TM-L500A Ticket helps cut your ticket queues with a print speed of up to 250mm/sec, and works with a wide variety of paper types – including thick media for high-quality printouts of both text and graphics.

Key features

- Works with a wide range of paper
- Easily switch paper types with paper detection sensors
- Print speeds of up to 250mm/sec – use with optional roll holder or simple fanfold insert from the backside

Simple paper loading.

Save counter space or mount in kiosks thanks to its small footprint.

Epson TM-C710

The Epson TM-C710 is a full-colour, high-quality coupon printer for effective targeted customer-marketing campaigns at the point of sale. It enables you to increase your revenue and your customers' loyalty with full-colour coupon campaigns. By printing colour coupons on demand, at the time of transaction, the TM-C710 allows you to better reach your customers with truly targeted promotions and special offers.

The amazing quality of coupons produced by the TM-C710 make it a powerful direct-marketing tool for communicating with consumers more effectively.

Key features

- High-quality, full-colour coupons
- High-volume coupon printing
- Fast and efficient; can issue a 20cm coupon in 2 seconds
- Save on space at the till-point with its small footprint
- High-capacity cartridges use every drop of ink

Increase the potential for capturing new customers and generating more in-store traffic with targeted promotional coupons.

OUR VISION FOR CUSTOMER DISPLAYS

Improve your customer communication with Epson's range of compact, adjustable and reliable customer displays. Our screens are much more than just price displays. High-resolution graphics and up to 8 lines of scrolling text give your business maximum visibility and clarity of information.

Epson DM-D110 Series

Maximise ease and clarity when dealing with your customers with this clear easy-to-read display that is ideal for restaurants and speciality stores. For extra flexibility, it can be adapted for panel and height adjustment.

Key features

- High-speed data transfer display
- Flash memory and extensive font table
- Optional panel and height adjustment

Epson DM-D210 Series

Make a clear customer connection with this large, wide-angle, high-resolution display. It is clear and easy-to-read with the 20-column, 2-line indications, and fully adjustable to fit into your space and layout.

Key features

- Flexible up/down, left-right adjustment
- Flash memory and extensive font table

Epson PS-180 as option

The Epson PS-180 is a switching power supply unit. It can save energy by reducing the power loss and be used with the most commercial voltage in the world with its universal power input.

Input	Output	Plug	Safety standard		
100 to 240V AC	24VDC, 2.0A	3P power jack	UL •	CSA •	TUV •

Flexible

Optional panel and height adjustment making them easier to fit in the space given

Fast

High-speed data transfer display so customers can see prices quickly

Proven

Millions of satisfied users have been enjoying their reliability for more than 20 years

SCAN MORE OF OUR PRODUCTS

Accuracy, performance, reliability, security, ease-of-use. Delivering all these qualities through innovative print and scanning technology, Epson's cheque scanners make electronic cheque capture simple to implement – for both retailers and financial organisations.

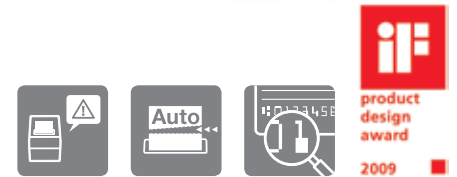

Epson TM-S9000MJ

Combine colour scanning, endorsement and receipt printing in one compact device. Set new standards in accuracy with a high MICR recognition rate of more than 99.9%, automatic skew correction and background noise filtering.

Key features

- Double sided, full colour scanning at up to 200dpm
- Wide endorsement area: print up to 16 lines
- ASF for up to 100 documents
- Scan photo ID cards
- Options include: 1 or 2 output pockets, MSR reader and USB Hub
- Supports TWAIN scanning

Epson TM-S1000

Add reliability and innovation to crucial scanning in financial and corporate markets. Achieve the highest MICR accuracy in the desktop scanning market and make the process fast, easy and world class quality.

Key features

- High accuracy grayscale and black and white scanning for cheques and documents
- Drop-in auto sheet feeder and 2 pockets

Epson TM-S2000MJ

Combine double-sided colour scanning and inkjet endorsement printing in one compact device for efficient processing of cheques, vouchers and cut sheets.

Key features

- Double sided, full colour scanning at up to 200dpm
- Wide endorsement area: print up to 16 lines
- ASF for up to 100 documents
- Scan photo ID cards
- Supports TWAIN scanning
- High MICR recognition rate of more than 99.9%
- Choose from 1 or 2 output pockets
- Also available with MSR reader and USB hub

ADDITIONAL PRODUCTS

ENHANCE THE CUSTOMER EXPERIENCE

You've worked hard to create your brand. Now take it further. Attract customers' attention with bold, bright colours, high-impact displays and added-value services.

A distinctive retail environment that encapsulates your brand and clearly differentiates you in the market provides a powerful way to engage with your customers. Epson technology is designed to help you get your message across at every touch point. From window displays to the till. Let Epson take your customer engagement to a new level.

SureColor SC-T Series

Supersize the impact of your promotions with our SureColor SC-T Series. Create large, high definition posters and displays that reinforce your brand image and help drive sales.

WorkForce Pro

Epson's WorkForce Pro Series printers offer low running costs, fast print speeds and low intervention to boost productivity.

Model shown is the A4 WF-5690DWF.

PRECISIONCORE

Epson EB-G6000 Series

Create the right ambiance and influence shopping decisions with high-definition window displays and in-store signage. Our EB-G6000 high brightness projectors can be concealed in small spaces and provide vivid natural colours and deep blacks.

LabelWorks LW-400

This small but powerful hand-held label maker is ideal for stock management, product identification, filing and name tags. From glow-in-the-dark, fluorescent, transparent, metallic and iron-on label tapes, LabelWorks has it covered.

“We are convinced of the quality of the solutions and, therefore, have no concerns about relying completely on Epson’s products.”

Stephan Bittner – Partner of the Alitalia restaurant, Hamburg

Epson Qualified Media

Our printers print on a wide range of uncoated or matte and glossy coated media, giving you high-quality graphics and photos. Combined with our DURABrite Ultra pigment inks, they ensure that your information really stands out. This logo is shown where Epson offers the media directly (this can vary by country).

Epson CoverPlus

This optional, additional warranty extends your peace of mind for three years from the date of purchase. Epson CoverPlus allows the option of extending and upgrading the standard warranty available with the product to provide additional cover should the product develop any fault. Epson CoverPlus extended warranty packs must be purchased within 90 days of the purchase date of the original product it is to cover.

A FULL RANGE OF EPSON MINI-PRINTERS TO POWER YOUR IDEAS

Epson Embedded Units

Epson Embedded Units offer a whole new dimension of self-service terminal design. They feature high printing speeds, high quality and reliability, a wide variety of module configuration selections, original Epson Advanced Printer Drivers, and many other functions.

Epson Embedded Units are sure to provide you with a rich environment for self-service terminal design innovation in both hardware and applications.

Thermal mini printer mechanisms

Thermal printers feature quiet operation and high throughput. Excellent for high-resolution graphics, our thermal printers render beautifully crisp, clear logo marks and barcodes. The simplicity of the paper path makes paper refills and maintenance easy. Epson offers a wide variety of thermal printers. You're sure to find one for your application needs.

Impact mini printer mechanisms

High speed, simultaneous printing of multiple copies, low running costs, easy maintenance: these are just some of the features of impact printers. Impact printers are especially suited to check endorsement and validation applications. With an extensive impact printer product line, Epson can offer you the best model for your application.

SAVE ON ENERGY SAVE ON COST

We are proud to have the world's first ENERGY STAR-qualified POS thermal receipt printer, the Epson TM-T88V.

We know that total cost of ownership, reliability and the environment are priorities for many of our customers who are looking to work smarter, streamline their point of sale and keep customers coming back. We've worked closely with retailers for over 40 years to make sure we understand what's important at the point of sale, but our innovations and our actions go even deeper than that. Now we are working towards making Epson's retail and hospitality printers the most environmentally friendly on the planet.

Reducing power consumption

-85%

This lowers costs for retailers and helps to improve our green credentials

Reducing paper costs

-30%

Our latest Epson point of sale printers feature Top Margin Reduction and Auto Paper-Saving functions

Reducing carbon footprint

-22%

Our retail printers have the lowest carbon footprints over the complete product life cycle

See how much you can save with our power consumption calculator www.epson.eu/ecopos

1st

POS

Europe's leading POS printer manufacturer

We are proud to say that half of worldwide sales receipts are printed on Epson point-of-sale printers.
