

Zebra Technologies Solution JumpStart

Experience the "art of what's possible" and demonstrate the benefits of your new intelligent edge solution

You're considering a new edge-data solution in your organization because you know it has the potential to deliver major business results. But first you'll need to demonstrate the potential and get everyone on-board from the very beginning.

Whether it's senior management, stakeholders or end users that you need to convince, you'll want a tangible proof of concept. And this can be difficult to do when the technology is new to your business. Solution JumpStart is the answer.

Solution JumpStart is a Zebra Signature Service that creates the "art of what's possible" so you can visualize your new intelligent edge solution to gain buy-in. It also helps you optimize a related application so you can re-start a stalled solution. With support from the industry leader in connected edge devices, you'll be sure to accelerate your project and deliver against your business objectives.

Reveal the "art of what's possible"

Through solution incubation, innovation and concept development, Zebra experts work directly on your solution to provide a watertight proof of concept. This will give you the impetus to speed up project delivery and see the real benefits of your intelligent edge solution much sooner.

Learn from successful projects

Best practice sharing is a core part of Solution JumpStart. It gives your teams access to the latest software engineering and app development ideas. At the same time, it cuts the costs of investing in training while freeing your IT teams to focus on their core skillsets.

Overcome typical project obstacles

When there aren't enough IT resources to prove the value of a new technology it can cause major delays. With Solution JumpStart you can make sure this doesn't affect the progress of your new intelligent edge solution. You'll get expert guidance and support to prove your concept early on.

Why Zebra?

At Zebra, we recognize that for businesses to compete they must become as smart and connected as the world we live in. While other providers focus on their own products, we focus on your business priorities. Solution JumpStart is just one example of how we do this. It de-risks the introduction of a new intelligent edge solution and accelerates your project so you can quickly meet business goals.
