**The comprehensive range of
Brother printers to meet your
printing needs**

Brother: the print experts

From our versatile range of multifunction printers, scanners and label printers, to our business solutions that help personalise your technology to suit your business needs, Brother is always striving to offer customers even more.

Over the course of the last 100 years, the Brother Group has provided a variety of products to meet the changing needs of our customers by leading the way with new innovations.

Now, we're focused on helping you to deliver greater productivity and efficiency through mobile and desktop work solutions.

'At your side', every step of the way

Brother Thermal Print Solutions

Brother's thermal printers are flexible, versatile and offer operational mobility virtually anywhere, allowing you to print on a variety of media wherever you need to.

With a range of connectivity options, accessories and supplies - we are confident that we have the solution to meet your business printing needs.

Our wide selection of printers ensure you'll always have access to the best printer for your specific requirements.

Whatever device you are using, and whatever the environment, Brother has a thermal print solution to enable on-the-spot printing of self-adhesive labels, tags, wristbands and receipts in sizes as small as 2" right up to A4.

PJ

Brother PJ Portable Printers

Print quotations, invoices and other reports whilst on the move and streamline the work of field sales, field service, transport and logistics and the emergency service sectors.

With a variety of connectivity options, PJ printers are ideal for printing on-the-go. The mobile A4 print solution is compact enough to fit easily into a briefcase or computer bag for wherever your work takes you.

Offering a fully portable and lightweight printing solution, the PJ printers are not much wider than an A4 sheet of paper. They are ideal for carrying in a bag or being mounted in a vehicle or a specialist case, as part of a complete mobile solution.

A wide range of accessories are available to customise your mobile print solution to your requirements.

See the full mobile and desktop range page for the full PJ range.

RJ

Brother RJ Mobile Printers

If you need an on-person print solution for printing receipts, sticky labels or on-the-spot quotes, look no further than our series of RJ mobile printers.

Featuring impressive print speeds, rugged build quality and Bluetooth, Wireless & USB connectivity options - these printers make it possible for busy mobile workers to print on site or in the field.

Due to the nature of many mobile applications, printers may be exposed to a range of outdoor conditions which can affect the print operation or cause damage. RJ printers carry a IP54 certification offering that extra peace of mind for outdoor applications subject to damp and moisture or indoor environments where dust is present. In addition, The RJ range is drop tested up to 2.5 metres to ensure toughness and reliability.

See the full mobile and desktop range page for the full RJ range.

TD

Brother TD Desktop Printers

Brother's range of TD professional desktop label printers offer the ability to print high quality labels, receipts, RFID tags and wristbands on demand, whatever the requirement.

Printing labels up to 4 inches in width, and with direct thermal and thermal transfer print technology, they fit the requirements of a large range of varied market applications.

The high specification desktop label printers bring you operational efficiency with easy-to-use, high speed and continuous printing. Combined with seamless integration and modular design, this range of printers enables you to print from virtually anywhere in the workplace.

Including a variety of supported printer command languages, including ZPL II emulation, the TD printers allow you to easily integrate into existing legacy systems.

See the full mobile and desktop range page for the full TD range.

Which printer is right for me?

Our mobile and desktop printers are suitable for a range of applications. Identify the best product for your organisation below.

printer for your
workforce**

Healthcare, laboratory and pharmacy

TD-2130N

TD-4520DN

TD-4520TN

With the strict regulations on the tracking of patient specimens and other items within the healthcare industry, clear and high quality labelling is essential to maintain safety and traceability.

Applications:

- Appointment cards
- Admission labels
- Specimen and pathology labels
- Blood bag labels
- Laboratory labels
- Microbiology labels
- Dosage/drug bag labels
- Wristbands

Retail

TD-2120N

RJ-3150

RJ-3055WB

Easy to read labels are essential for consumers to help make informed decisions prior to a potential purchase.

The high print resolution and high quality labels used in this range ensure that every output printed looks professional, offering sharp text, logos and barcodes with a high contrast to ensure faultless scanning at the checkout.

Applications:

- Pricing labels
- Barcode labels
- Shelf-edge labels
- Sale, mark-down and discount pricing labels
- RFID tags

Food Traceability

TD-4520TN

TD-4520DN

TD-2120N

Tracking food through all stages of production is vital when safeguarding the consumer and minimising public health risks.

Brother has a wealth of experience in food labelling and understand the importance of transparency for the consumer. Efficient and accurate labelling processes ensure customer safety and satisfaction.

Applications:

- Pricing labels
- Barcode labels
- Pre-packaged food ingredients labels
- Nutrition information labels
- Expiry dates

Transport and Logistics

RJ-4250WB

TD-4750TNWB

TD-4520DN

Efficient warehousing operation and worker productivity are critical to the success of many companies. With the most common sizes of shipping labels available and the support to create custom sized labels, there are many uses for these printers in the warehouse.

Applications:

- Shipping labels
- Carton labels
- Location labels
- Pallet identification labels
- Quality control labels
- Compliance labels

Field Workforce

RJ-4250WB

RJ-2050

PJ-773

Whether you need receipts or smaller format labels, without a mobile print solution, handwritten documents are time consuming and prone to error. That's why most businesses are empowering their workforce with mobile technology, meaning they complete tasks on the move, professionally and on schedule.

Applications:

- Receipts and invoices
- Estimates and quotations
- Statements of work
- Work orders
- Maintenance and service reports

Public Safety

RJ-2035B

RJ-3035B

RJ-2050

Increase operational efficiency by allowing law enforcement officers to document and report incidents more accurately and efficiently, at the point of interaction. With their rugged design, fast print speeds & reliable operation, our printers offer a competitive combination of performance and features.

Applications:

- Parking violations
- Electronic citations and fines
- Warning notices

Emergency Services

RJ-4250WB

RJ-3035B

PJ-763

No-one wants to be waiting on technology, especially in an emergency. Ideal for a fast-paced environment, our mobile printers have a range of optional accessories such as car mounts and a variety of connectivity options, making them suitable for use in emergency vehicles on-the-go.

Applications:

- Patient records
- Care plans
- Incident reports
- Recording of accidents and crime scenes

Field Sales

RJ-4250WB

RJ-3050

PJ-773

Free your workforce to complete a deal or finish a task by providing professional documentation on the spot.

Brother's portable printers feature small, lightweight and versatile models which can be carried in a bag or mounted on a vehicle.

Applications:

- Receipts and invoices
- Quotes
- Statements of work
- Legal documents
- Certificates

Software
development
kits available
for seamless
integration

With label design apps for desktop PCs and mobile devices, and Software Development Kits to integrate Brother mobile printers into your own applications, you can choose the best option for your label, receipt or wristband printing needs.

Software support features

Label Design software

Supplied as standard (via download), you can create your own custom labels with pixel precision by using these powerful software applications. There is support for a variety of barcode protocols, advanced image dithering to print high quality grayscale images.

Selected applications also have the ability to link data contained in Excel spreadsheets for batch printing of labels.

Printer Command Languages

With support for ZPL2 emulation across many hardware platforms as standard and a variety of additional printer languages, developers can easily integrate printing into existing legacy systems (see specification tables on the next page for further details).

There is also the ability to simplify integration with legacy systems by converting print commands into P-touch Template. These templates can be updated externally to the legacy system without needing specialist knowledge of print languages such as EPL, ESC/POS and others.

Software Development Kits

Brother can supply a selection of free of charge Software Development Kits (SDKs) to give you an easy method of incorporating label printing directly from within your own software programs. Available from: www.brother.eu/developer

Crop Function

Built into the Windows driver, this function helps take away the inconvenience of using A4 sheets of labels in your standard printer. This clever feature automatically scans through the document and where a barcode is present, it extracts shipping or product labels one-at-a-time and prints as individual labels.

Template Mode

Design the required document on your Windows PC, including logos and barcodes. Once transferred and stored in the printer's memory, the templates can be recalled and any variable data replaced, before printing with just a few short commands.

Device Management

As most printer devices are either used remotely or away from the administrator, it is necessary to maintain control in the form of troubleshooting or software updates. Brother has a variety of applications to accommodate this requirement via a desktop PC or mobile device.

Software features are not supported by every model. Please speak with your Brother sales representative in regards to your specific requirements.
