

## HOSPITALS & CLINICS

Custom solutions focus on the **safety** of patients and operators, with the goal of **preventing medical errors**. Custom understands the importance of all phases of care and how strategic the instant capture of sensitive data is to each of them. Our printing and scanning systems are **integrated solutions** that meet the diverse needs of the hospital environment: admission and access control, wards, laboratories, pharmacy, and internal logistics. Digitizing processes, patients, and resources ensures continuous monitoring and safe hospital stays.

### **INCREASED SAFETY**

Integrated technology solutions to ensure new levels of safety for patients, staff, and all resources involved.

### **REDUCED ERRORS**

Equipment designed to prevent human errors, instantly capturing readings and updating information in real-time.

### **IMPROVED CARE PATHWAY**

Specialized monitoring systems that communicate across each phase of the patient's stay, from admission to discharge.

### **FACILITATED BEST PRACTICES**

Reliable tools to capture, monitor, and share sensitive data in real time, anywhere, anytime.

ADMISSION

Our **integrated printing and reading solutions** for barcodes, patient and staff identifiers and identification wristbands guarantee efficient **access control** and clear **verification of identity**. Custom's printing systems include color printing technologies, and 1D/2D and RFID codes. Custom scanners enable data capture in a secure and efficient manner.

ADVANCED ADMISSION

To reduce queues and optimize admission procedures in complete security, Custom offers **self-service kiosks** that integrate advanced printing systems.

RIDUZIONE  
DEL RISCHIO  
CLINICO

WARDS

Custom offers tools to **capture and monitor accurate data** on the patient and on his/her care pathway, including **on the move**. Custom's mobile computers are equipped with LTE data modules and 1D/2D scanners; functions perfect for easily updating clinical information, anywhere and in real time, and for quickly responding to specific requests such as drug-patient matching.

P-RANGER

LABORATORIES

**Integrated solutions** help to optimize procedures securely, ensuring samples and results match. Custom **scanners and mobile computers** are used by laboratory personnel to capture, catalog, and read data.

PHARMACY AND LOGISTICS

Drug management is essential to ensure that the correct stock levels are maintained and expired items are removed. Custom solutions include advanced technologies, such as **label printers** (color and B/W) and **mobile computers** for scanning 1D/2D codes, for accurate and reliable inventory control, improving services to patients and reducing waste and costs.

HOME CARE

**Home treatment** may be provided due to a number of patient conditions, or environmental factors. To optimize this type of **mobile intervention**, Custom offers a combination of **portable tools** for both indoor and outdoor data scanning and printing, thanks to **LTE data modules** and **Bluetooth®** technology.

MY PRINTER X

## LABEL & WRISTBAND PRINTERS

### TK306

Prints color wristbands.  
Prints color NFC badges.  
Prints color medication labels.

### D4 302-K

Prints patient identification labels.  
Prints sample labels.

### TK302

Prints B/W patient ID wristbands.  
Prints wristbands with RFID technology.

## MOBILE COMPUTER

### P-RANGER

1D/2D barcode scanning.  
Clinical record lookup.

### K-RANGER

1D/2D barcode scanning.  
Inventory lookup.

### SCANRANGER

Scans sample barcodes.  
Scans patient codes.

## PANEL PRINTERS

### PLUS 2

Prints test results.  
Prints intervention reports.

### MPLUS 2

Prints test results.  
Prints intervention reports.

### PLUS 4

Prints test results.  
Prints intervention reports.

## KIOSK PRINTERS

### VKP80III

Queue management.  
Prints self-service receipts.

### TG2480H

Queue management.  
Prints self-service receipts.

### MY PRINTER X

Prints prescriptions.  
Prints receipts.

## KIOSK SCANNER

### KBR2D

2D self-service barcode reading.

### KBR2D-C

2D self-service barcode reading.
