Interactive Digital Signage

Attract. Engage. Experience.

Captivate your audience with powerfully innovative touchscreen products designed to engage. From in-store displays to interactive kiosks, Elo touchscreens create High-Impact Experiences.

A Solution for Everyone

Retail

Engage customers with interactive experiences including in-store eCommerce, product or brand immersion and convenient self-checkout options.
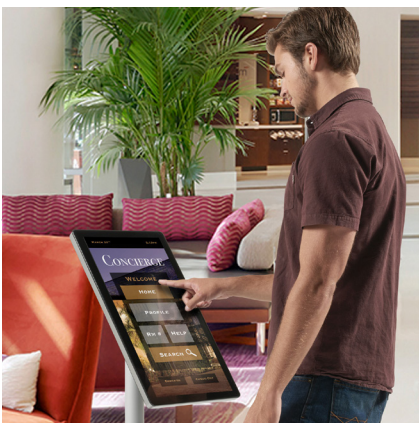

Restaurants

Elo is a global leader in self-order solutions. Self-service solutions simplify the order process, increase sales, and enhance your customers experience.

Healthcare

Elo offers touchscreen product solutions for a variety of healthcare applications - from nurse stations and patient education, to patient check-in and pharmacy check-out, Elo can help streamline the experience.

Hospitality

Use interactive digital signage to create upscale ambiance while empowering guests through wayfinding, learning about local amenities and activities, as well as other services offered.

Corporate

From visitor management and directories, to internal dashboards and conference room collaboration, our interactive signage solutions create an opportunity to communicate and engage.
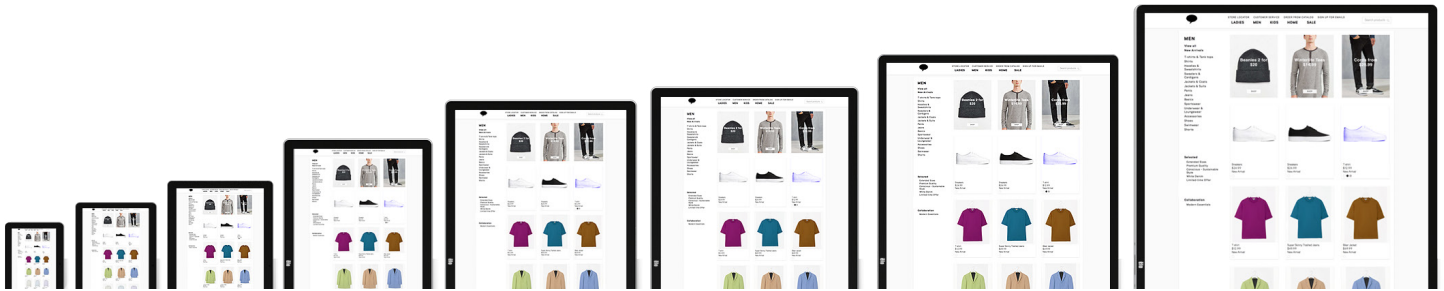

Public Spaces

Create an engaging experience from interactive wayfinding in a mall, checking in at the airport, to buying a subway ticket. Interactive digital signage can create a seamless experience and lasting impression.

Unified Style Across Sizes

Available in 10 to 65 inches in size, Elo's interactive displays are slim, sleek, stylish and are designed to provide consistent performance in high traffic environments.

Power with Performance

Elo enables a seamless end to end solution from one manufacturer for both Android and Windows based operating systems. Purpose-built for compatibility, the compute modules and touchscreen systems create one of the most robust and reliable solutions for commercial environments.

Elo Edge Connect Lets You do More!

Built with versatility in mind, Elo's Edge Connect offers a wide assortment of peripheral options.* Whether for endless aisle, self-service or collaboration applications, seamlessly attach any combination of up to four peripherals, to the edge of the touchscreen creating a bespoke solution. And, you can add or move them later as your needs change!

Start Managing Your Devices Smarter

EloView is a secure platform for remote content deployment and device management. Whether you need to push new content to a device or simply need to change the screen brightness, EloView has you covered. From devices and content, to security and peripherals, we have a solution that is sure to work for your business.

A Robust Set of Features

We provide features that get you up and running quickly and engage your audience in new and exciting ways. With EloView you can update content with drag-and-drop ease.

Kiosk Mode   **Content Delivery**   **Provisioning Service**   **Device Management**   **Physical Analytics**

Scalable Solutions

Elo's new Android-powered solutions lowers costs, improves scalability and simplifies creation of customized touchscreen solutions. Transform what was a bulky, highly customized kiosk or signage display into a sleek and modern design.
