ONE

Mission

As a leading global supplier of touchscreen solutions, it is our business to know touch. In fact, we pioneered the touchscreen over 40 years ago and haven't stopped since. Every 21 seconds, a new Elo touchscreen is installed somewhere in the world.

Our product portfolio includes a broad selection of interactive touchscreen products including: interactive displays ranging from 10" to 70" inches, all-in-one touchscreen computers, touchscreen monitors and OEM touchscreens and controllers. Consumers can find the company's touchscreen solutions in gaming machines, interactive kiosks, hospitality systems, point-of-sale terminals, wayfinder displays, interactive retail displays and transportation applications—just to name a few!

We are large enough to be global, yet focused enough to deliver personalized support.

Why Choose Elo?

Integrated Touch

Elo's industry-leading PCAP touchscreen technology with a 10-touch tablet-like experience.

Flexible Mounting

The O2-Series offers a variety of mounting options to meet your installation requirements.

Peripherals

Whether you need a barcode reader to scan items or an EMV to enable secure payment, the O2-Series has the accessory you need as well as an additional port to enable 3rd party devices.

Built-to-Last

Our touchscreen monitors deliver the quality and reliability Elo is known for, and are backed by our 3-year warranty. We design and build the complete solution, with touch integrated from the start.

Well-Suited For

Not all businesses have the same needs. Whether you need a touchscreen at the point of sale to process a transaction or in a restaurant to enable self-service for guests to view your menu and submit their order, the line of 02-Series monitors can support the installation needs with ease while maintaining a modern, sleek aesthetic.

Elo Edge Connect™ Lets You Do More!

Built with versatility in mind, Elo's Edge Connect offers a wide assortment of peripheral options. Whether for endless aisle, self-order or collaboration applications, you can seamlessly attach any combination of up to four peripherals to the edge of the touchscreen creating a bespoke solution. And, you can add or move them later as your needs change!

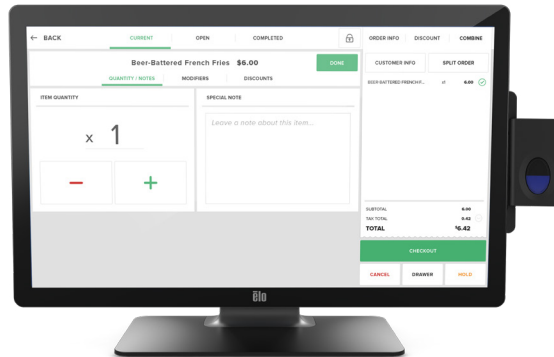

Fingerprint Reader

The Biometric Fingerprint Reader can be attached to provide secure and quick login.

MSR

Elo offers the flexibility of integrating payment devices, including a Magtek 3-track encryptable MSR payment terminal.

Barcode Scanner

Enhance self-service checkout and price-checker applications by coupling a high-performance barcode scanner onto the Elo touchscreen.

NFC

The Near Field Communication (NFC) adapter can be integrated for easy mobile payments with just a touch of the phone.

Consistent Design. Consistent Connections.
