

Public Safety Overview

Rugged Mobile Computers

Purpose-Built Mobility Solutions that Deliver a Performance Edge in Public Safety

You need to be ready for anything, and aware of everything. In public safety settings, access to real-time data is crucial, so your mobility solution has to be durable, connected and purpose-built for the job. Zebra rugged mobile devices meet requirements on every count.

Zebra provides an ecosystem of rugged purpose-driven mobility solutions to give field-service technicians access to real-time data with real-time guidance through reliable, collaborative mobile workflows.

Form Factors to Meet the Needs of Every Worker

Mobility is about having the right tools available via a device that's easy to access and use at all times.

As the global market leader in rugged mobility, we make it our job to provide you and your people with solutions that deliver where it matters.

That's why we offer a comprehensive selection of form factors, from compact mobile touch computers to rugged tablets that act as 2-in-1 laptop replacements, in a range of screen sizes and with a choice of operating systems.

XSLATE R12

Rugged tablet with 2-in-1 capabilities; 12.5" sunlight-viewable Active Display; under 3 lbs.; four CPU choices; RFID and scanner options.

ET51/56

Surprisingly rugged, thin and lightweight; 8" or 10" screen; Windows or Android; swappable batteries; Zebra scanners available.

XSLATE L10

Zebra's most rugged tablet; 10.1"; IP65, 6-ft. drop rated; auto-sensing glove/wet-touch technology functions in rain, snow and cold.

TC72/77

Ultra-rugged enterprise handheld all-touch computer; maximum computing power; rich locationing support; high-quality voice.

XPAD L10

All the features of the XSlate, plus a hard handle; choice of three form factors; multiple CPUs; Windows® or Android™.

TC52/57

Rugged enterprise handheld all-touch computer; rich locationing support; high-quality voice; large five-inch touchscreen.

XBOOK L10

Rugged 10.1"; 2-in-1; a highly versatile tablet designed to be the perfect laptop replacement; removable keyboard; built-in KickStrap.

TC26

The ultimate cost-effective touch computer; high-resolution 13-megapixel camera; large 5-inch HD touchscreen; removable/replaceable batteries.

Reliable Connectivity

No matter what challenge you face on the job, with Zebra devices you'll always have a direct line to your team, and the real-time data that informs your collective decisions. Our devices are capable of communicating via 4G LTE, WiFi and mobile networks today. As new networks emerge worldwide, we continually adapt our technologies, while continuing to provide Push-To-Talk (PTT) capabilities, to maintain connectivity.

Meet Government Most Stringent Mobility Requirements Needs

Your crews rely on real-time data access and communications to respond quickly and safely to every call, and to complete incident investigations without issue. That's why they need a Zebra rugged mobility solution within reach at all times.

Unlike notebooks and handhelds, Zebra rugged devices are genuinely mobile while providing industry-leading performance, protection and connectivity.

Why Zebra Rugged Devices are Right for You

True Mobility

Multiple form factors, from handheld mobile devices to laptop replacements, and accessories to suit every application

Rugged, Field-Proven Performance

Virtually waterproof, drop-proof, dust-proof and tumble-proof to ensure reliable operation in the most demanding conditions

Uninterrupted Connectivity

Up to 8 built-in I/O ports, many sealed (USB, True Serial, RJ-45, HDMI IN); power-saving faster wi-fi connections, 4G LTE, Bluetooth, GPS CBRS

Back-Office Compatibility

Genuine Windows® OS; Android™ OS; Computer-Aided Dispatch (CAD); Remote Management Systems (RMS)

Easy Data Entry

Dual mode capacitive touch with stylus, finger or gloved fingertip input; Digital/Wacom pen, barcode scanner, mag stripe, EVM chip pin and NFC/contactless; RFID

Top-of-the-Line Safety

Intrinsically safe (C1D2/ATEX) for Hazardous Locations

The Most Complete Line of Accessories

Second/hot-swap batteries; work-anywhere kits; secure mobile docks for in-vehicle, desktop

Powerful and Future-Ready

Intel® Core™-Series processors; Qualcomm Snapdragon™ 660; SSD; expansive storage and memory; GIS; Internet of Things

Unrestricted Usability

MIL-STD-810G; IP54/65/67/68; Interactive Sensor Technology; extended-life batteries

Government-Mandated Security, Multi-Layer Authentication

WEP, WPA/WPA2 Personal and WPA2 Enterprise security; fingerprint scanner; Encryption Smart Card/CAC; CJIS; HIPAA

Purpose-Built Fleet Solutions

Custom-fit mobile computing solutions for every "official use" vehicle make and model

Zebra Mobility DNA

For Android OS, delivering a host of tools to enhance business, productivity, development and management, including LifeGuard for Android, Zebra's software security solution

*Check with your regional Zebra representative for the latest product specifications available.

Meeting the Changing Needs of Public Safety

Zebra rugged devices support the relevant software, enable constant communication and deliver the latest intelligence in real time. This supports more effective coordination between police, fire & rescue and paramedics during emergency response and management operations.

Mobility Solutions to Suit Your Workflows

Zebra designs and delivers rugged mobility platforms that are adaptable and expandable. As such, they are invaluable in a wide range of applications including:

- Ticketing and fines
- Dispatch and routing (GPS)
- EHR/ePCR
- Evidence documentation
- Fire and building inspections
- Mapping/GIS asset location
- Safety audits and compliance reporting
- Emergency response planning and management
- Maintenance and repair scheduling and completion
- Investigations
- Situational awareness
- Incident reporting

Total Mobility Solutions for Public Safety

Zebra offers a comprehensive range of mobility solutions, software and support for public safety agencies:

- Zebra OneCare™ Support Services deliver unmatched technical support and repair services to help ensure predictable performance and uptime
- Visibility Services monitor, manage and track the utilisation and health of devices for better business outcomes and maximum ROI
- Mobility DNA transforms Zebra's Android mobile computers into true enterprise devices by effortlessly connecting devices with enterprise applications, administration utilities and development tools

We're ready to talk to you about how we can help to improve your public safety operations.
