Why mount a payment terminal?

- **Protect your hardware investment:** Devices can be dropped, cables damaged and spillages resulting in call out charges, downtime and having to replace devices
- **Security:** Protect from theft and tampering for PCI best practice
- **Customer service:** Provide better customer service at payment points anywhere, including contactless and accessibility for all

Benefits:

- **Compatibility:** Mount devices from ANY manufacturer
- **Ergonomic design:** Internal cable management for easy operation with tilt and rotation
- **Modular:** Easy to upgrade when the payment device changes.
- **Security:** ClickSafe security options for added PCI compliance.
- **Social distancing:** Promotes the use of contactless payments and reduces cash handling.
