

# 2020 H2 Quick Demo Program

Claim immediately your Demo Products and skip the Request Form Process

## HOW IT WORKS

The Quick Demo process is available to all Resellers and Distributors registered in Europe and authorized to sell Honeywell products in Europe.

The Quick Demo process is available on purchases of the Qualifying Products, which are sold between July 15<sup>th</sup> and December 31<sup>st</sup>, 2020.

The Quick Demo process is valid for one (1) unit per product family for 3 months for each Reseller, along with one (1) corresponding accessory. Should a Reseller require more than the allowed quantity of products they should contact their Honeywell Channel Account Manager to discuss the requirement.

Resellers can purchase at 70% discount from Authorized Honeywell Distributors and the Demo Discount will be provided at the point of purchase.

The Distributors will be asked to provide a basic set of data related to the Resellers, in case they are not already a member of the PPP program.

The decisions of Honeywell in respect of any and all aspects of this offer will be final and binding.

Honeywell reserves the right to amend or cancel the terms of this offer at any time without prior notice.

## Terms and Conditions

- In the first months from the NPI launch date, the Distributors can sell to Resellers Demo units at 70% discount, without submitting a Demo Product Request.
- The Distributors will be provided with a specific code, unique to each product family,
